Hello there,

We've had another busy month!

If you have any interest in the updates outlined in this newsletter, or you have any other inquiries, you can reach us any time at help@nexonia.com.

WEB

- **Modern, Less Cluttered Web Interface:** we've removed the gradients, eliminated the rounded corners and now we're continuing to refine our interface to make it cleaner and more elegant.
- **Timesheet Location Tracking:** now you can see where your mobile users are when they recorded their time. Not only that, but it's integrated with Google Maps!
- **Timesheet Geo-Fencing**: you can now enter GPS locations for your projects and then we'll tell you how close to the projects your teams were when they recorded their time!
- **Work-Day Cutoffs**: a great addition to our other cutoff settings.
- **Receipt Exporting using TIFF**: one of our customers asked for a single multi-page TIFF for exporting receipts, so you know we said yes. :)
- **Policy Violation for Minimum Amounts**: some customers require claimable expenses be above a minimum amount, and we now support that too!

MOBILE

- lots of small refinements
- watch out in July for our new mobile user interfaces!

INTEGRATIONS

- **Dynamics GP**: many refinements, including filtering vendors by Class ID.
- **Intacct**: many refinements, including even more work on cash management.
- **NetSuite**: wow, we were at SuiteWorld and loved meeting all our long-time and new customers. We even co-sponsored the Avalara after-party!
- **QuickBooks**: we're on Apps.com!

COMING SOON

- Duplicate Checking in June
- Receipt Data in June
- Nexonia OCR in June
- New mobile user interfaces in July!
- and much, much more!
