YAGF - June 2014
Yet Another GP Feature :)

Hello to all our Microsoft Dynamics GP customers and partners,

It's summer and we hope everyone is having a great one!

If you have an interest in these or anything else, you can reach us at any time at
help@nexonia.com.

You can now use your appreciation for Nexonia to make the world a better place. Every time you recommend Nexonia to your friends and they start using our solution(s), we'll donate $50 on your behalf to either the United Way (for North America) or your local Red Cross organization.

All you need to do is to go to this page and let us know who you think would appreciate Nexonia as much as you do! It goes without saying, but we appreciate and value all our customers.

NEW FOR JUNE 2014

- **Mirror Categories**: now you can add expense categories manually and have them mirror against an existing category / natural account. The nice part about this is that it means you don't have to create more natural accounts just to get finer detail tracked in Nexonia than you want in GP.

COMING SOON

- Multi-destination Mileage

- SmartScan of Receipt Data
- Even more Mobile UI Updates
