

YAIF - September 2013

Yet Another Intacct Feature :)

Hello to all our Intacct customers and partners!

We've been busy with updates for our Intacct integration and this is what was released this month.

Most of these new features are coming to you because of customer requests, so please keep them coming! As you know, our motto is "**if you don't charge us for your good ideas, we don't charge you to implement them**".

NEW FOR SEPTEMBER 2013

- **Nexonia custom field values into Intacct custom fields:** This is a great feature and means you can add custom fields in Nexonia and rather than send the values into standard Intacct fields, you can now send these custom field values into Intacct custom fields.
- **Customer name prefix/suffix:** You can now add the Intacct customer ID as a prefix or suffix to the Intacct customer name when syncing it over to Nexonia.
- **Intacct employee custom fields:** This is great, as you can add a custom field in Nexonia and Intacct and manage it from Intacct and Nexonia will sync the values automatically!
- **Intacct expense approval limit custom field:** You can now create an expense approval limit custom field in Intacct and Nexonia will pick up the values on syncing and they can then be used in Nexonia approval processes.
- **Timesheets split by project:** This allows a multi-project weekly timesheets in Nexonia to be divided into project-specific timesheets in Intacct.
- **Expenses billable flag:** This can now be sent for expenses, just like it has been possible for timesheets.

EXISTING FOR INTACCT

- **Setup in 60 minutes:** We have a very quick setup process - so quick that we had to stop charging for configuration and setup
- **Full integration:** Automated synchronization (add/change/edit) of employees, employee managers, customers, projects, departments, items, classes, locations, expense types, entities and timesheets types & tasks
- **Deep configuration:** Not only do we have full synchronization, but we have even more refinement settings for the objects we synchronize
- **Automated Expense Reports in Intacct:** Nexonia delivers approved expense reports into Intacct as Intacct Expense Reports.
- **Automated Timesheets in Intacct:** We transfer approved timesheets to Intacct, including time types, time tasks, customer, projects and billable status.
- **Corporate credit card integration:** We've been automating credit card feeds for you for a long time now: Amex, Visa, MasterCard and Diners Club

ABOUT NEXONIA

- **Partner Program:** send us an [e-mail to learn more](#).

- **Full web support:** IE 8, 9, 10, Safari, Firefox, Chrome and Opera with no browser plugins required
 - **Full mobile support:** iOS (iPhone and iPad), Android phones and tablets, BlackBerry10 (Q10, Z10 and PlayBook)
 - **Corporate and Personal credit cards:** Amex, Visa, MasterCard and Diners Club.
 - **VAT and multi-currency:** We handle daily exchange rates and any taxes in the world
 - **Incredibly flexible approvals:** Route by managers, project managers, expense or time approval limits and any other dimension you care to use
-
