NEW FEATURES FOR OCTOBER 2014

- **Intacct Advantage 2014:** we can't wait to see you all in Orlando. We highly recommend the show!
- **Nexonia Purchase Orders:** now fully integrated with Intacct!
- **Vendor Bill Allocation Support:** we got on a call with a customer and they described allocations in vendor bills, **so we set it up on the spot** thanks to our awesome Intacct integration options. Soon after we were asked for "optional allocations" and if not set then use the Nexonia-entered dimension values, so we added that too!
- **Time Off with Intacct Timesheet Integration:** now we have full time off / vacation tracking, including automated accruals.
- **Receipts into Cash Management:** this is our first line-item receipt integration so that we send the individual receipts related to cash management charge transactions.
- **Cash Management Period Override Date:** we now have a setting where you can set the date for the oldest closed period.

COMING SOON
