

YAIF - Octoberber 2013

Yet Another Intacct Feature :)

Hello to all our Intacct customers and partners!

October has been a busy month, not the least of which has been us being at Intacct Advantage last week! We were really thrilled to have met so many of you! It was truly an amazing experience.

NEW FOR OCTOBER 2013

Our big focus for October was the work we did in preparation for the Advantage show and also the groundwork we did in preparation for our support of Intacct's new cash management interface for credit card transactions. We'll have it launched and available by the end of November. It'll be another option alongside our existing corporate credit card integrations.

EXISTING FOR INTACCT

- **Setup in 60 minutes:** We have a very quick setup process - so quick that we had to stop charging for configuration and setup
- **Full integration:** Automated synchronization (add/change/edit) of employees, employee managers, customers, projects, departments, items, classes, locations, expense types, entities and timesheets types & tasks
- **Deep configuration:** Not only do we have full synchronization, but we have even more refinement settings for the objects we synchronize
- **Automated Expense Reports in Intacct:** Nexonia delivers approved expense reports into Intacct as Intacct Expense Reports.
- **Automated Expense Receipts in Intacct:** full receipt transfer into Intacct.
- **Automated Timesheets in Intacct:** We transfer approved timesheets to Intacct, including time types, time tasks, customer, projects and billable status.
- **Corporate credit card integration:** We've been automating credit card feeds for you for a long time now: Amex, Visa and MasterCard
